

PREMIER

A CREATIVE PRODUCTION COMPANY

Equipment Overview

Offset Lithography

Creative and cost-effective solutions

Our presses—big and small—produce high quality, cost-effective products. Whether it's brochures, direct mail programs, or catalog reproductions, our stringent color matching requirements ensure premium products.

Our E2 vegetable base and UV inks result in outstanding print color, on uncoated and coated papers alike. Our UV ink prints on uncoated paper with outstanding color hold out and a reduced drying time.

Komori Lithrone LS840/C/P 8-Color

28" x 40"

40" Perfector + Coater

UV Ink and Coating Capability:

AMS UV System

Advanced Ink Management Software Integration

Ultrasonic Double Sheet Detector

Automatic Make Ready + Plate Hanger + Coater

Printing Density Control Spectrophotometer

Quick Touch Oscillating Rollers

Sheet Decurler

Ink Dispension Automation

2010 Advanced Integration (AI)

Anti-Static Bar | Heatproof Delivery

Komori Lithrone 40 6-Color

28" x 40"

UV Ink and Coating Capability:

AMS UV System

Anilox Enclosed Chamber Coater

Fully-Automatic Plate Change

Automatic Make Ready

Printing Density Control Spectrophotometer

Console Ink Oscillation Changeable

KHS Incline System

Ink Dispension Automation

Presstek 52DI 4-Color

Digital Presses

The Komori IS29 the next chapter of digital printing

The new technology provides a larger format to produce premium marketing materials with the flexibility of short runs for targeted marketing. Retail and POP executions become easier than ever with the flexibility of printing on all paper, plastic, and magnetic receptive medias. It is a big win for our community and our future collaborations with you.

Komori IS29

Large Format

Larger than life ideas

Produce images as big as your imagination! From posters to building wraps to window displays to event graphics, we have the experience and equipment to make large format ideas a reality. Our large format services:

Roll and rigid substrates	Contour cutting	Seam welding	UV ink
Lamination and mounting	Grommeting	White print capabilities	

We print on the following surfaces

Doors	Wood	Aluminum	papers	Plastic	Asphalt	board
Glass	Pegboard	Mirror	Fabric	Asphalt	Magnetic	Wallpaper
Metal	Window clings	Metallic	Vinyl	Concrete	Dry erase	

EFI VUTEK LX3 Pro

Handles flexible and rigid substrates up to 126 in wide and up to 2 in thick
Multi-roll capable, two 60 in rolls
Heavy-duty unwinder
Extension table with casters
Three-quarter automated load and unload media handling

HP Latex 3000 Printer

6-color process
10-foot rolls
Single roll up to 126"
dual roll up to 2-2 x 63" HP
1200 dpi resolution
HP 881 latex inks
Scratch resistance comparable
HP 881 latex printheads
High-speed, reliable fiber optic cable data transfer to print
Carriage up to 10 Gbits/second
HP latex optimizer
High-efficiency curing
Odorless/VOC-free

Durst Rho 800 Presto UV Printer

6-color + white
Voted flatbed printer of the year
98" continuous board printer
VOC-free UV inks
Roll or rigid substrates up to 1.6" thick
White Ink voted the industry's "best white"

Zund High Performance G3-3XL-3200 Digital Cutter

Working area – 126" x 125" materials up to 1.97" thick
Self-adjusting vacuum for material hold down, reduced energy consumption
Tandem vacuum system, 3XL line
Integrated compact color control camera ICC for exact registration
8 modular tools
Automatic initialization of cutting and routing tools
Integrated Tool Initialization
Die-cutting, shaping, routing, creasing
Bar code reader
Roll and sheet material

Zund High Performance G3-2XL-3200 Cutter

Working area – 107" x 125" materials up to 1.97" thick
Self-adjusting vacuum for material hold down, reduced energy consumption
Tandem vacuum system
Integrated compact color control camera ICC for exact registration
8 modular tools
Automatic initialization of cutting and routing tools
Die-cutting, shaping, routing, creasing

Mimaki CG130 FXII Vinyl Cutting Plotter 51"

With sensor and FineCut software

Fotoba XL/XL320 Cutter

Working area – 130" x 43"
Materials up to .04" thick
Self squaring to the image edge
Max linear speed 50 ft per minute
Vertical slitters
Automatic scanning of cut marks
Self sharpening blade system
Accuracy + - .04"

Edward Segal Grommeter

Fully automatic, top and bottom load

Seal 65 Pro MD Laminator

Precise digital finishing
5 modular tools
75" x 120" cutting area
Die-cutting, shaping, routing, creasing

Miller Weldmaster T300 Edge Sealer

Heat weld seams - cleaner than sewing pole pockets

SK-Singer 300205

Two needle 1/2" gauge
Chain stitch machine with built in puller

Bindery & Letterpress

Putting it together

Our experienced bindery team offers in-house finish solutions to guarantee schedule, ensure quality and maintain full control of a project. Equipment such as our Bravo-t saddlestitcher with 6 pockets, cover feeder and high quality Rollem scorer, our MBO Perfection folder, or the Perfecta 52" automatic waste removal paper cutter CIP 4 enabled with cutting programs automatically imported from the pre-press templates, are just some of the equipment complementing our technical bindery staff. We have the people and the equipment to get the job done right and on time.

Book binding for short runs or speciality projects

Debossing

Round Cornering

Imprinting

Elegant impressions

We use the art of letterpress work to create a visual and tactile experience. With a multitude of colors, finishes and other techniques such as holograms, we can help you create a project with impact.

For specialty die-cuts, pocket folders, shaped pieces or accurate round cornering, our letterpress department is the answer.

Packaging for a variety of solutions

Whether you need a complicated packaging solution made from a variety of substrates or a simple solution such as a presentation folder, our experts and equipment are sure to exceed your expectations.

Mueller Martini 380T Bravo Saddle Stitcher, 6 pockets with cover feeder and stacker

Rollem Automatic Score, perf and fold

MBO 26" Perfection Folder

MBO 26" Folder with Z-2 Knife, double gate folding

Computerized guillotine cutting technology

Heidelberg letterpress die-cutting, scoring

Perfecta 52" automatic waste removal paper cutter

CIP3 and CIP 4 enabled. Cutting programs imported automatically from the prepress templates and converted into a program

High Security Cutting System (HSCS) – dual microcomputers, monitoring all functions for absolute operator safety

Perfecta automatic jogger with counting scale

Duplo DC-646 slitter cutter creaser folder

Perfecta Automatic Unloader – automatically stacks cut lifts onto skids, without the operator having to lift and bend

2-45" Itoh cutter

SGS 40" Heidelberg cylinder die-cutters (3)

28" Heidelberg cylinder die-cutters (2)

Heidelberg 12x18 windmill die-cutter

Kluge Omnifold 3000 automatic folding and hot gluing system

Packsize EM7-35

multi-patented automatic for on demand custom box-making

Online Ordering & Custom Fulfillment

Bringing it home

Our expertise in online marketing solutions and logistics ensures on-time delivery, correctly packaged materials and efficient fulfillment for cost-effective shipping:

Customized interactive web storefronts

Multi-level approvals and payment methods options

Customized reporting and tracking

Static or variable print customization

Print management

Collateral management

Inventory management

Assembly and kitting

Pick and pack

Quick start ordering portal

Secure inventory solutions

Direct Mail Marketing

We'll Manage Your Data and Take on Your Chaos

Direct mail is a powerful, precise, and cost-effective way to communicate directly to customers with a wide variety of marketing materials. It's a flexible, highly measurable component of a diverse and potent multi-channel marketing approach. Implemented strategically, direct mail boasts a 4.4% response rate compared to email's .12% response rate. Premier can help you use this method to target prospects, increase engagement with existing customers, and complement your marketing campaign.
